CHIROPRACTIC CLINICAL OBJECTIVE

Physical, emotional and chemical STRESSES, common to our contemporary lifestyles, can result in misalignment of the spinal column causing damage to the nerve system. The result is a condition called Vertebral Subluxation. The Chiropractic exam/evaluation is specifically designed to detect Vertebral Subluxations in all phases of their progression.

Many common symptoms and conditions are caused by the interference and stress on the nerve system. Please place a (X) on conditions that you are currently suffering from and a (O) on any conditions you have had in the past.

TERMS OF ACCEPTANCE

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be able to attain it. This will prevent any confusion or disappointment.

Adjustment: *An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.*

Health: *A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.*

Vertebral Subluxation: *A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.*

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, _____ have read and fully understand the above statements.
(print name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care on this basis.

Consent to evaluate and adjust a minor child

I, _____ being the parent or legal guardian of _____ have read and fully understand the above terms of acceptance and hereby grant permission for my child to receive chiropractic care.

INSURANCE ASSIGNMENT AGREEMENT

This office is pleased to accept your case on an insurance assignment basis as soon as your insurance company or responsible party verifies your coverage. We will file your claim forms to assist you in every way we can for reimbursement.

However, it must be understood that insurance contracts are between you, the patient, and your insurance company; you are responsible for any amount not paid by your insurance company.

In accepting your insurance on assignment we are extending you credit. We will extend a credit limit of \$50.00. This courtesy may be withdrawn if circumstances below warrant it.

1. Our office does **not** guarantee that your insurance will pay. You will need to make every attempt to obtain verification of your policy coverage. However, if for any reason, your insurance claim is denied, you are responsible for the full amount of your bill.
2. Deductibles must be confirmed and satisfied prior to assignment being enacted.
3. Your insurance contract may state that you have a maximum monetary yearly benefit or visit benefit. Once you have reached your limit, we have cash plans that we can transfer you to.
4. Your insurance should pay within 30 days. If your insurance has not paid within 60 days, then you are required to pay the balance due. You will be reimbursed by your insurance company if and when it pays.
5. We will continue to bill your insurance on 30 day cycles as long as you are receiving active chiropractic care in this office.
6. Our office will not enter into a dispute with your insurance company over your claim. This is your responsibility and obligation.
7. If you choose to cease or dismiss yourself from care without the doctor's authorization, the balance of your account is due and payable in full at time of your discontinuance even if your insurance has been filed. If and when your insurance pays, the remainder will be credited/refunded once you have a zero balance.
8. Any special arrangement regarding finances must be signed by the doctor and patient and/or their representatives.
9. Any balances beyond 30 days will be assessed a \$10 late fee. Any balances beyond 90 days will be assessed to collections which could potentially double your balance for any legal or collections fees incurred.

If you understand and agree with all the above policies, sign your name below and we will accept your insurance assignment as stated above.
